

Advancements in contact lens technology offer the potential of successful contact lens wear to most of our patients. A contact lens is a medical device in contact with the tissue of your eye; therefore, it must fit appropriately to maintain the health of your eyes.

#### **Your Annual Contact Lens Evaluation May Include:**

- 👁️ Personnel review of current vision, comfort, handling, care, solutions and other concerns
- 👁️ Visual acuity with contact lenses
- 👁️ Refraction over contact lenses
- 👁️ Reading prescription with contact lenses
- 👁️ Biomicroscopic exam with contact lenses
- 👁️ Eyelid evaluation/eyelid eversion
- 👁️ Keratometry (measure of corneal curvature)
- 👁️ Fluorescein evaluation (to assess any possible damage)
- 👁️ Dry eye evaluation
- 👁️ Recommendations for contact lenses and solutions
- 👁️ Care and handling of contact lenses review
- 👁️ Prescribing and ordering contact lenses
- 👁️ Providing contact lens solution samples
- 👁️ Replacement of torn or lost disposable lenses
- 👁️ Inspection, polishing, and/or dotting of gas permeable contact lenses
- 👁️ Advice and guidance to ensure clear vision, comfortable lenses, excellent eye health, and continued contact lens wear success.
